

# Plant swap

## Myatt's Fields Park

### 26th May 2024

### 2pm - 4pm

Get growing! That's the message from IEL as we move into spring - encouraging everyone to start growing some baby plants that can benefit your community.

IEL organised a seed swap in February when dozens of people took away free seeds. Now we've arranged a plant swap where volunteers can bring along the baby plants they've grown at home, and swap or give them away to local groups or individuals.

Every grower tends to plant too many seedlings each year - this is your chance to use them to benefit your community.
